Cargo Tank Emergency Response Workshop

Tues and Wed - July 24-25, 2018
8:00am – 5:00pm (CST)
Owensboro National Guard Armory
3300 Tamarack Road, Owensboro, KY 42301

Course Description:

This 16-hour course is dedicated to preparing emergency responders for tank truck related hazardous materials incidents. This course is combined with multi-media classroom presentations and simulators to provide hands on training, on site. Upon completion students will better understand:

- How to determine correct specification of a cargo tank
- Construction features associated with cargo tanks and their relationship to damage assessment, up righting, leaks and spills
- The purpose of functions of safety relief devices and any other emergency devices
- Normal loading and unloading procedures and the rules of liquid and vapor dynamics
- Basic principles and techniques associated with emergency loading and unloading
- Advanced containment techniques suitable for cargo tanks
- Critical elements of "Cargo Tank Emergency Management"

Student Criteria:

This course is open to all Emergency Management, Rescue, Fire, Environmental, Emergency Medical, and Law Enforcement personnel or any organization having responsibility for mitigation of a hazardous materials incident. HazMat Awareness and Operations will be beneficial to the student.

Special Notes:

Advance student registration is REQUIRED. Meals, lodging, and travel arrangements/expenses are the responsibility of the student and will *NOT* be reimbursed by KYEM unless otherwise noted.

Registration:

Registration application for the course can be completed using the following link:

<http://kyem.ky.gov/training/Pages/HazMat.aspx>

Students will be notified if the course is cancelled. For this reason, it is imperative that you provide accurate contact information.
